Clarion Call to All Souls – Standing Form as Lightworkers 2 - 4

World Wide Rose Flame Invocation for December 10, 2008 4 - 6

Just as every other living being, humans exist for a reason. If we consider what motivates us: the pursuit of pleasure, of wealth, of power, love of art, or people, we have to ask: “Will any of these truly make us happy? Would serving a higher goal bring us satisfaction? What degree of compassion do we have for our fellow human beings? Why do we show our best altruistic qualities only during some disaster?” Humanity learns, grows, and evolves so that we eventually reflect the qualities of our Creator. This is a long process, involving numerous lifetimes to achieve.

Even though we all have similarities as human beings, when it comes to relating to our world and to each other, we exist at different levels of understanding. Accounting for mankind's diversity is complex.

There are many different cultures and different sets of values, yet we as a species have certain commonalities. We all seek to be loved, to find meaning in life, and to be happy. But is this all there is? When we examine more closely what motivates us, most people would say this is the pursuit of happiness, love, power, wealth, or knowledge. Some people feel satisfied through their accomplishments, while others turn to drugs or alcohol to feel good. Then there are those who would contend that there is more to life than feeling "good." We exist for a higher purpose, a Divine Purpose!

The Divine Plan calls for each and every human being to reflect a vision that moves life forward, incorporating the Creator's ideals of love, joy, perfection, abundance, wholeness, and unification. To achieve this blissful state of mind, insight, as well as effort, is necessary. Only when unification is complete, can humanity live in a peaceful state of harmony with all of life. If growth and assuming responsibility for our behaviors was easy, our world would not be in its current chaotic state. Humanity must move into its rightful place within the Creator's Plan. Progress can only be achieved through **conscious action.**

Conscious action is required during all our daily activities and as we encounter problems and challenges, so we can learn and grow. Throughout the world, humankind is expanding its awareness and knowledge, resulting in a new global community with a greater capacity to love. This is the primary goal of humanity in Aquarius; to change from a *self-centered focus to one of loving assistance to all others on the planet.* In this way, through great love, humanity will prosper and flourish with the Light of God.

Today we are witness to the ravages of plague, famine, drought, and ecological destruction on a global scale. Our personal lives continue to be affected by ever increasing economic and social pressures. As Light Workers upon planet Earth, we are confronted daily by a multitude of challenges which affords us a great opportunity to stand as examples of unity, love, and purpose to others. Yet in the midst of all our distractions, the wonder of a more comprehensive spiritual reality is slowly being revealed to humankind.

Who or what is a Light Worker? What is our objective? Why are we here scattered throughout the world at this time? A Light Worker is a soul functioning as a point of spiritual power. These souls are advocates of the core principles found in the New Enlightenment concerning planetary transformation and individual and group ascension. Each one is an individualized point of entry into a higher dimensional space who is working to assist the continuing growth of the human race. These souls live their lives for the purpose of externalizing more of the One Absolute Creative Manifestation into form. Some specialize in the field of consciousness, while others find their place in politics, education, medicine, art, literature, and a variety of other global ventures.

All of us are teachers, and within our one united hear exist a profound conviction for the innate goodness within the human race. Internally, we are linked together as spiritual allies and stand for the reality of spiritual enlightenment. Our function is to assist humanity during this time of transition as we move away from the old Piscean Era and into the new Aquarian Civilizations. Due to our ability to avail ourselves of potent comprehensive energies, we are catalysts for growth within others. We are real, we do exist, and we are working in all areas of Earth.

Do we work towards peace? Yes, always, but this is not our immediate goal, for we need only to look realistically at the world around us to realize these are not peaceful times. **Transition periods are times of profound changes that lead us into an expanded awareness of life.** Gradually we learn that our old methods are ineffective and that a new way of life must be developed in order for humanity to move forward towards harmony. A global civilization is being born, but it is not a gentle and peaceful birth. As a species we have always grown the fastest through conflict, and although we may wish this were not the case, it should not blind us to the reality of what is. When our species decides to evolve as souls instead of merely as egos, then we shall know growth through wisdom, which is the more evolved method of expansion. It is the limitations to our collective unity that must be transcended at this time

Global unity is not yet a reality, although we are moving steadily in that direction. The number of wars on this planet steadily reduces year after year. Fifty years ago we could find between 50-70 wars present on earth at any given moment. Today, in the first few years of our 21st Century, we see a remarkable change with only 10-15 wars present. Many of our current systems and patterns of thinking are being restructured. We each have a choice to make as to whether we will cling desperately to the old or work fervently to build the new. Unity cannot be built on exclusivism, absolutism, and intolerance

The period of depending upon a few isolated leaders is passing and a civilization based upon interdependent group resources is slowly being born. Our species is experiencing a time of frantic change affecting all life. This has required the simultaneous emergence of many enlightened souls, not just one or two or three. This time the job is massive and all of us must learn to work as one harmonious family, including not only the masses but the many diverse Light Workers, New Age Avatars, and Ascended Masters Manifested. Let us also remember the desired alterations in our civilization can only be achieved by the collective effort of the people. In order for this to become possible, we must all strive to release spiritual knowledge with greater wisdom and remove paradoxes by revealing the valuable hidden mysteries.

As spiritual wisdom teachers, we too have had to learn and experience a new way of doing things. This time we must walk out openly and teach directly in the midst of the masses, with all their confused and discordant energies flowing constantly through us. The days are over of abiding in our old retreats and lammistaries while basking in the glory of our divine meditations for hours upon hours of blissful peace, in oneness with the Universe. We have stood up, released the old paradigm, and come forth one by one to answer the call of humankind's global crisis.

A new reality can be created; the current movement towards destruction can be transformed, and the impossible can appear before your eyes. As Light Workers our activities serve to augment the stability of human perception, minimizing the pre-existing unbalanced fluctuations present within the global psyche. Additional stability will continue to be a necessity throughout the years ahead.

Today spiritual seekers need to have a clear understanding of the process leading to advanced human perceptions. This desire to expand self awareness grows stronger hour by hour in the general populations. Accepting truth on faith alone is no longer as important as validating spiritual reality through direct experience. **Humanity hungers to forge a deeper connection to Divinity and this goal is a prerequisite to the eventual transformation of Earth with its new Aquarian Civilizations.** Our growing scientific, technological culture will eventually be experienced as cold and repelling without a corresponding development that emphasizes our highest human values, and a communal sense of shared goodwill towards all. With each passing year; more and more people are compelled to seek out that which nurtures the very quality of their souls.

However, people must not surge forward impulsively before first obtaining as much information as possible on their chosen field of exploration. By gaining a measure of understanding about this evolving process of **conscious expansion**, individuals will be able to comprehend their own mystical expressions in addition to gaining greater insight into the changes occurring now throughout the world.

The goal of all spiritual metaphysical training is to awaken the hearts and minds of humanity to embrace a higher social consciousness, leading towards some form of altruistic service upon this planet. Altruism is not a quality or a virtue. *Spiritual altruism is a life expression that grows within each individual in direct proportion to a person's ability to respond to soul direction.* Our altruism may be confined to family or friends, or it may expand to encompass the entire human race. Today there are thousands of groups throughout the world working to improve the quality of life for all. There are many ways to provide assistance, and each of us can certainly do something to be of help. As Light Workers, our greatest service is not demonstrated merely by esoteric activities, but by our ability to stand firm and to manifest who and what we are each moment of our lives. We are here because of love, and through love we are united as one to all life upon Earth and in the Cosmos.

Let us come together, for the job is massive. We cannot afford the luxury of allowing incessant ego dramas to separate us upon this third dimension. Souls of Light: Our clarion call is simply a reminder of the example we are required to set before others. We are the expressions of one Divine Heart; it shall be perceived as dysfunctional and weak, or it shall be seen to contain the strength of Divine Love that has the power to ascend all.

The Onhi Ascension Group

World Wide Rose Flame Healing Invocation

Link to the Pure Heart of the Our Lady Emanuella on December 10th, 2008, for our World Wide Healing with the Rose Light.

Come together with your friends or individually and send the Rose Light of Freedom, Healing and Transformation to Humanity and to our Planet.

It is recognized as the highest healing frequency now available on Earth for Ascension.

Preparation:

- When working with the Rose Flame first set the intention and the connection to Infinite Love with our invocation. Then visualize yourself connecting with the nurturing aspect of your heart. Try to connect to the Love within.
- Feel, and visualize yourself emanating a sphere of Rose Light from your heart and then allow this sphere to engulf your total being.
- Whenever you inhale then expand the Light. When you exhale the breath, let the Rose Light of Infinite Love flow through your heart and allow it to flow gently and continuously into the air of the entire planet.
- In so doing, the soul will find that this energy of Divine Infinite Love, the Living Purity of the Rose Flame, ascends one above the imbalances found in a discordant, out-of-balance planetary matrix and transforms each person into a light of healing for this thirsty world.
- Let us stand firm, as One Loving Heart, united in our purpose to uplift all life upon Earth into greater Light and ever closer to the One Absolute Source.
