

**MISSION STATEMENT:** “One World Heart’s mission is to lift humanity up “onhi” and our planet Earth (Gaia) through education and promotion of the new Aquarian Spirituality, according to the Creator’s Will and Plan.”

**Manifestation**

**(Man·i·fes·ta·tion):** An indication of the existence, reality, materialization or presence of an idea or someone or something.

**The Principles of Manifestation**

**Chi, Ki, Manna, Prana, and Life-Force: energy and Infinite Love are the many attributes of the One Absolute Creator. These aspects live in all Kingdoms and all of Creation. It is the breath, the pulse and the beat of the One Absolute Creator’s Heart.**

This energy or Infinite Love of the Creator’s Heart is in exhaustible. It never dies, for the Creator’s Heart continually flows through and around us and everything that is created. It does not rush, judge, annoy, hate, control, disrespect, boast, and neither is it rude. It is the arteries or channels that unclog the River of Life.

As energy beings we are co-creators with the Creator. The Creator’s Love allows us to be who we are and nurtures us, enabling us to fill ourselves first and then to give the over-flow to others. As we connect to the Creator’s Heart we expand ourselves to align and en-train our heads and hearts to be in compliance with the Creator’s Will and Plan for us, and to be in sync to manifest. This process is Abundance.

Abundance is the Creator’s In-finite Love in action. It is nurturing, limitless, kindness, acceptance, approval, clarity, joy, trust, faith, prosperity, peace of mind, and good health. As we align to abundance we al-ways find ourselves in the right place at the right time.

Everything flows in Divine Order. When we are in abundance we are grounded in our authentic power and we are self-actualized. A self- actualized being is at peace and does not worry about the opinions of others, for there is a surrendering to the Creator’s Will and Plan, a detachment from the outcome, and no need to control others.

On the opposite side, pain, suffering and destruction are also an aspect of the Creator. When we disconnect from the Creator, we are in fear. Fear is the separation from the Creator. The Creator gives us a gift which is called Free Will. Free Will is the decision we make on our own, and when based on fear and a need to control the situation and/or others, the response is emotionally immature or a reaction of Ego. Ego is not bad. It just wants what it wants and wants it now. This immature Ego is impatient, insatiable, conditional, but all it really wants is to be loved. When we separate from the Creator, there is a need to control the situation and others. Our own lives are out of sync and we are always in a hurry. This is called scarcity. Scarcity is fear in action; it is the urge to fight or flee; it is angry, judgmental, hateful, disrespectful, limited, arrogant, doubtful, boasts and it is rude, due to emotional immaturity.

We may ask why pain, suffering and destruction are a part of the Creator. This is so because of the tension field we create with our thoughts and beliefs.

*‘That which you are already within your own self is the divine purpose which sent you forth. If you will chase that purpose up face to face with itself you will have uncovered the true God.’*

When we do not change our thoughts and beliefs, we are held in a tension field. On the other hand, when we do change our thoughts and beliefs, we go beyond the duality and transcend to uplift our-selves to a greater Love, Light and affirming Life. In this way we re-connect to the Creator's Heart.

As we reconnect to the One Absolute Creator, we are in control of our lives. We are centered, focused and grounded in our authentic self, and then empowered to stand on our own two feet to move forward in life and to motivate ourselves to our life's purpose as well as to serve humanity. This power nurtures us and feeds the ego what it wants, which is, to be loved, which then propels us to be emotionally mature. We are then able to make proactive decisions as a soul.

As we align with the soul aspect of ourselves, we are able to surrender to the One Absolute Creator's Will and Plan. We are motivated to express the passion or the soul's desire of our life's purpose, to creatively articulate and expand this, to find a vehicle to educate and evolve humanity, and to transform our planet and prevent its course of extinction.

Beloved Souls of Light, Divine children of the One Absolute Creator and all light bearers, it is time for one and all to heed the call to surrender to the One Absolute Creator's Will and Plan. You have the power within yourselves to find your own soul's desire, to fulfill your life's purpose, to flow with the rhythm of abundance and to serve humanity and your planet.

Standing firm - dauntless  
in MY conviction.  
I do not shame at MY  
'Innovative' flavor

The patterned response  
such polarity  
At last - visionary clarity!  
'MY' 'Being' - NO MORE distress or torment

The Image I portray - the things  
I do

And those who 'See'  
will surely note  
I don a brand a new coat.  
For MY life no longer is a trance  
With a new verse and chapter  
I advance .*

*"I AM" the ONLY ME  
Who Deserves TO BE...!!  
MY inner ME - I do declare  
With pride, I share.  
This inside ME  
The part you cannot see.  
Feelings, ideas, hopes and dreams  
I inspire and beam.  
MY 'Spontaneity'- how palpable  
it leads and guides*

*I Do NOT fear - I Do NOT Hide!  
SELF-Actualization - I cement  
Possibilities to Realities - I augment.

Who Deserves TO BE...!!  
Responsibility - Commitment- Discipline - I take ALL  
to TASK  
I do not blame - It's MY Triumph.  
In it I cherish - In it I bask.  
No others can do it  
I need to elevate  
Countdown - I consummate.  
For in learning to become  
and then TO BE  
This is MY call to finally be FREE!  
I do not compromise.  
I do not hold back  
I do not need. I do not lack!  
Determination - "I AM"  
exalted to the skies  
As I collect MY ultimate prize.  
I claim MY Birthright.  
I halt this suffocation  
For - "I AM" MY OWN Creation!  
Finally - A solid stage  
In MY 'Gift' - I engage..!  
With a throw of MY dice  
To Life I add spice.*

*MY ME, with a hug and a kiss  
In growing Awareness.  
"I AM" the Bliss!  
The Light within - It ignites  
and shines  
For MY ME. "I AM" Divine!  
MY 'Purity' - An outpouring  
a rupturing  
A Novel structuring.  
I call upon MY Only SOURCE  
And surrender to this  
MY original course.  
MY 'Sanctity' - a sure bet  
"I AM"- What a beautiful duet!  
"I AM" the Fullness of Love's Law  
"I AM" Eternally In Awe!  
MY ME - Much more than just ADEQUATE  
"I AM". I A-D-U-L-A-T-E!!*

*"I AM" THE ONLY ME  
WHO DESERVES TO BE...!!*

## Spirit of God

**Have you ever been in a disaster?** I speak not about the many individual personal hardships confronted by people on a daily basis all over this world. Instead, let us pause for a moment to consider the energetics of a broad community disaster where people on all levels of growth come together for a brief time to experience the reality of Spirit poured out into matter for a shared collective purpose. Suddenly a hid-den potential is revealed as a greater collective power. Rarely sensed or experienced, it emerges to confront the ravages of chaos. This is the power of Human Spirit, laid bare and revealed to all those who have the ability to understand.

**Mystics credit the Divine Spirit as being so enmeshed in substance; both appear one and the same.** We know God has intensified energy to create matter. Physicists confirmed this reality as they broke open the boundaries of the Atom exposing secrets of incredible condensed power. Speed matter up, energy is released, and light is produced. Slow light way down, energy is contained, and matter is produced.

**The Holy Spirit is simply another name for God in manifestation or God who has created its multi-universal Holy Body out of material substance.** The Hebrew calls it Shechinah which is merely that aspect of God to be found in all matter. There-fore, God is omnipresent. For centuries, Metaphysicians have labored helping others to understand we live, move, and have our being within the Holy Body of the One Absolute Creator. Even at the dawn of this new 21st century, proponents of the New Age movement strive to help others realize we are part of this Divine Holy Body; Divinity is also part of our total and complete being.

**Do we blaspheme by claiming humanity is Divine, in some unrealized and unexpressed way?** There is no desecration in such a claim, rather, a tribute to the understanding that God is simply all there is. Consequently, all that is carries within it some Divine Component that can be reached, expressed, and subsequently reveal-ed, by Human Beings. How do we do this? What part of us is created to so interact with matter moving with-in the fullness of time to eventually reveal an essential divinity? Our spiritual purpose, our reason for life, is made manifest through the power of Spirit. Isn't it time for us to learn passion and intensity they possess.

**Want to know more of your purpose while you stand in form?** First learn to become the great intensity of love which sustains the power of each Sprit of Light. When you have accomplished this advanced goal then push the power and intention of your spirit into matter, again and again, until some small measure of its hidden infinite potential is revealed for the benefit of many. Choose any subject or any object for there will always be more that can be revealed and known.

**Another understanding of the natural world and our position in the universe is emerging upon Earth.** The new concepts of life validate the higher truth of essential unity, wholeness, reciprocity, interdependence, and co-creation.

**We know all living systems, whether a single cell, an organism, or a rain-forest, are fundamentally dynamic learning systems:** open, creative, free, curious, inter-connected, and naturally compelled to explore all potential, thereby revealing the hid-den mysteries. Do not fear to tread into the unknown and discover the passion of your heart's purpose for this is the way walked by all courageous souls of light, love, and life!

**Movement is change; change is life; and life is synonymous with spirit,** for it is *Spirit* that is given the power to reveal the universal purpose of our Creator's Plan for ultimate Cosmic Potential.

Emanuella**

never congested.  
It has infinite patience.  
It neither persuades  
nor punishes.  
It waits for the open mind  
through which  
it can flow to make heaven  
and earth one.”*
